Oil & Gas Exploration sector outperformed KSE-100 index due to increase in exploration activity, expectations over settlement of circular debt likely to be approved by IMF, increase in price of gas leading to reduction in gas based build-up of circular debt and increasing foreign interest in Reqa Diq. Textile sector outperformed benchmark index due to rising monthly textile exports as well as robust increase in domestic cotton arrivals leading to improved sector dynamics. Fertilizer sector outperformed KSE-100 index due to growth in agricultural activity and strong demand for UREA/DAP witnessed in ongoing season resulting in government's decision to continue gas supply to small manufacturers.

Cement and Engineering sector underperformed benchmark index primarily due to slow construction activity leading to low demand. High interest rates bodes negative for manufacturers that are highly leveraged. Chemical sector underperformed KSE-100 index due to low international margins amid rising costs of energy. Currently, the KSE100 index is trading at P.E multiple of 5.25x and has a dividend yield of around 8.0%.

Federal Excise Duty (FED)

The Finance Act, 2013 imposed Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMC's) with effect from 13th June, 2013. On September 04, 2013 a constitutional petition has been filed in Sindh High Court (SHC) jointly by various AMC's, challenging the levy of FED. In a separate petition the Honorable Sindh High Court declared that the FED was unconstitutional and cannot be charged where provinces are collecting sales tax. The Federation has filed an appeal in the Honorable Supreme Court of Pakistan Further, via Finance Act 2016, the FED has been withdrawn from July 1, 2016. In the meantime, as a matter of abundant caution, the Scheme has held provision for FED liability which amounted to Rs.20,301,988 up till June 30, 2016. (Rs.1.45 per unit as on January 31, 2024)
