Foreign Investors, Individuals, Mutual Funds, Insurance, and NBFCs were net buyers of USD 34mn, USD 23mn, USD 22mn, USD 2mn, and USD 1mn. Meanwhile, Banks/DFIs, Companies, and Brokers were net sellers of USD 60mn, USD 14mn, and USD 6mn, respectively.

In contrast, Power Generation & Distribution, Oil & Gas Marketing Companies, Oil & Gas Exploration Companies, Textile Composite, Pharmaceuticals, Cement, and Engineering underperformed the benchmark, posting returns of -10.0%, -7.2%, -6.3%, -5.8%, -5.5%, -5.4%, and -4.9%, respectively.

During the month, refinery sector remained in the limelight due to progress on the brownfield refinery policy, which aims to modernize refineries through investment of about USD 6 billion to improve product quality and increase production. Sentiment was further strengthened following the approval of amendments to the Pakistan's Oil refining Policy 2023 by the government.

In contrast, Oil & Gas Marketing Companies and Oil & Gas Exploration companies underperformed the benchmark amid volatility in international crude oil prices and uncertainty following the deadlock between Pakistan and the IMF over the proposed resolution of gas-sector circular debt, which dampened investor sentiment towards energy-sector stocks. The cement sector also underperformed amid heightened geopolitical uncertainty and concerns over higher coal prices, which could weigh on cement manufacturers' margins. Currently, the KSE-100 Index is trading at a Price-to-Earnings (P/E) multiple of 7.9x and offers a dividend yield of approximately 5.6%.

On The Money Market Front

The State Bank of Pakistan (SBP), in its latest monetary policy statement decided to keep the policy rate unchanged at 11.5 percent. The Committee observed earlier deescalation had led to a decline in global oil prices and a relative ease in supply chain disruptions, which resulted in some improvement in recent economic indicators. Headline and core inflation moderated in June, though both remained at elevated levels. At the same time, incoming high frequency indicators pointed to some pickup in economic activity, whereas external account pressures remained moderate. In this context, the MPC assessed that the current monetary policy stance remains appropriate to guide inflation towards the target range of 5 – 7 percent over the medium term.

The CPI inflation increased to 9.20% YoY for the month of July'26. While monthly CPI observed an increase of 1.20%. The increase in CPI was mainly attributable to increase in Food & Non-alcoholic Bev., Communication, Recreation & Culture and Furnishing & Household Equipment Maintenance.

Additionally, M2 experienced a decrease of 6.23% during July 01, 2026, to July 24, 2026, as compared to a decrease of 3.77% during the previous corresponding period. The latest report shows that government matured Rs. 1,902 billion from scheduled banks as compared to a maturity of Rs. 124 billion in corresponding period last year.
The Central Bank raised an amount of Rs. 2,649 billion under two T-bill auctions. The weighted average yields under the latest accepted auction were 11.2916% for 1 month, 11.4226% for 3 months, 11.5379% for 6 months and 11.8946% for 12 months. During July'26, the 6 months KIBOR (offer) observed a decrease of 2 BPS to 11.78% compared to previous month and averaged 11.68% during the month.
